BY HMS NETWORKS

Intesis AC interfaces
for Panasonic Air Conditioners

Intesis portfolio for Panasonic Air Conditioning systems ensures a perfect interconnection between the most extensively used protocols in home and building automation and Panasonic systems.

The products from Intesis make it easy to meet Panasonic integration needs, enabling full control from domestic AC lines to the most recent Aquarea H Air to Water system.

Intesis Air Conditioning Interfaces

Intesis offers high quality Air Conditioner interfaces for the integration of climate systems into BACnet, KNX, Modbus and 2.4 GHz wireless installations.

Enjoy the benefit of working with the market leader in the field of Air Conditioning integration that offers highly reliable solutions developed in collaboration with all major AC manufacturers.
