

Product: **Application Unit Time**

Type: **ABZ/S 2.1**

Current Application program: **Time Quantities/2.1**

=====  
Software-Information

to: Time Quantities/2.1  
from: 09/2007

1. Day Routine:

If a standard day routine of the day runs over several days, after the first daily change no more switching times implemented.

Over an object more activated, if day routine of the day runs in over several days, after the first daily change no more switching times implemented.

These changes were adapted in the current version.

2. Quantities:

Negative EIS5 of values is wrongly calculated. EIS5-Quantities thereupon wrongly released.

This change was adapted in the current version.
