Important references for installation of the RCP-Tool RCP 1.3 (Win 2000/XP)

The ETS (ETS3 resp Power Projekt (Vers.4.5) must be installed on your PC before starting the installation of the LEAN-and SMART touch software.

Important:

Please deactivate your Firewall, Virus Scan and further Internet-Security programs before starting the installation.

In the following it is shown, how to deactivate the Firewall in the Security Centre under Windows XP with Service Pack 2.

- Click on Start \rightarrow Settings \rightarrow Control Panel
- Under Control Panel click on Windows Security Centre
- Following dialog box appears. Please click with a double click on the Windows Firewall button.

Now select 'OFF' and confirm with OK

🖗 Windows Firewall	×
General Exceptions Advanced	
Your PC is not protected: turn on Windows Firewall	
Windows Firewall helps protect your computer by preventing unauthorized users from gaining access to your computer through the Internet or a network.	
🔮 🔿 On (recommended)	
This setting blocks all outside sources from connecting to this computer, with the exception of those selected on the Exceptions tab.	
Don't allow exceptions	
Select this when you connect to public networks in less secure locations, such as airports. You will not be notified when Windows Firewall blocks programs. Selections on the Exceptions tab will be ignored.	
🔞 🕫 Off (not recommended)	
Avoid using this setting. Turning off Windows Firewall may make this computer more vulnerable to viruses and intruders.	
What else should I know about Windows Firewall?	
OK Cancel	

- The Firewall is now deactivated.

Installation:

- 1. Start the installation with the file "Setup.exe" In case you use the Software as Download from our Support-Center, extract the ZIP-file first!
- 2. Select your preferred Setup Language (English or German)

3. When the installation is finished, ETS-User (ETS3) has to import the productdata from the sub-directory VDX.

Remark: The Import should be done via function " Import all"

- 3. In case you already have an older version of the RCP-Software installed on your PC, the deinstallation of them will be done automatically during the installation of the new Software.
- 4. With the current version of the RCP-Software you can control/operate the LEAN- and SMART touch 6936/30M, /100M, /100C and 6136/30M, /100M, /100C as well.

Important:

Please do not forget to activate your Firewall, Virus Scan or Internet Security Programs again after you have installed the RCP-Tool successfully.
