

## D1100E

## IP VIDEO DOOR STATION

**Engineering Edition for integration purposes** 

## **TECHNICAL SPECIFICATIONS**

| GENERAL              |                                                                                                                                                                                                                                               |
|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Power supply         | 15 V DC (max. 15 W) or Power over<br>Ethernet (PoE 802.3af Mode-A)                                                                                                                                                                            |
| Weight               | 471 g                                                                                                                                                                                                                                         |
| Connectors           | LAN/PoE (T+, T-, R+, R-) Bi-stable latching relay (potential-free), max. 1-24 V DC/AC, 1 A, e.g. for electric door opener External input for external door opener buttor One hardware extension module (COM1) 15 V DC input (+, -), max. 15 W |
| Weather-proof        | Yes, IP65                                                                                                                                                                                                                                     |
| Approvals            | IP65, CE, FCC, IC, RoHS, REACH, IEC/EN 62368, IEC/EN 62471, Wi-Fi CERTIFIED™                                                                                                                                                                  |
| Dimensions           | 115,5 x 56,5 x 27,5 mm (H x W x D)<br>4.55 x 2.22 x 1.08 in (H x W x D)                                                                                                                                                                       |
| Operating conditions | -25 to +55°C / -13 to 131°F<br>Humidity 10 to 85 % RH<br>(non-condensing)                                                                                                                                                                     |
| Scope of delivery    | 1x Main Electrical Unit 1x Power supply unit (mains adaptor) with 4 country-specific outlet adaptors (110 - 240 V AC to 15 V DC) 1x Screwdriver 1x Quickstart guide with Digital Passport 1x Installation manual 1x Small parts               |

Two-way, full duplex

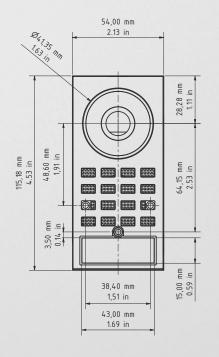

newest Android on Smartphone/Tablet

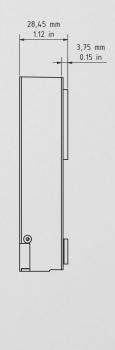

Network: Ethernet Network, with DHCP

Camera lens should be at a min. height of

no socks or proxy server

Internet: High-Speed Landline Broadband Internet connection, DSL, cable or fiber optic,

Special remarks: Assembly requires professional skills or a technician.

System requirements
