Stay Safe 24/7... Security and Cameras

Valesa panel takes an innovative approach to protect your safety. Even if you're not at home if an alarm occurs, Valesa notifies site/residence security personnel for an immediate intervention keeping your home safe.

Valesa includes a burglar alarm armed in stay or away mode. With intelligent network structure and SIP technology, you can communicate with site security or between apartments quickly and easily.

You can monitor all cameras in your living environment with Valesa, and contact site security personnel if necessary.

Better Safe Than Sorry... **Safety and Burglar Alarm**

Whether you are abroad or at home, Valesa will protect you against fire, flood, gas leakage, or burglars by providing an alarm.

Alarms can be defined in software using dry contacts provided on the valve panel. You can find detailed alarm notifications through Valesa or on your mobile devices.

No need to worry if you forgot to arm the burglar alarm before you leave! Just grab your smart phone and set the alarm via Valesa Mobile.

With Valesa mobile application, you can go one step further and cut off electricity, water and gas systems remotely if necessary.

Discover the Power of Valesa in Communication... **Intercom**

You can use your Valesa touch panel to communicate with outdoor intercom units and open apartment doors.

Valesa touch panel also allows you to make calls within the apartment units, security, site management and reception.

Furthermore, you have all the power of Valesa Touch Panel in your pocket: Valesa Mobile phone application.

Live in Luxury... Concierge Services

In addition to in-house control, Valesa enables you to use the services provided by the site management.

Calling a taxi, dry-cleaning, restaurant reservation, valet service, technical service and many more....
