DESCRIPTION

Interra ITR832-AA2 emergency lighting luminaire is an emergency lighting device that can be used indoors and outdoors, has a polycarbonate case and glass material, and has a 3-hour lifetime in emergency states. It offers an effective solution thanks to its high energy saving, long-life use (approximately 50,000 hours) and SMD LED application. In addition, ITR832-AA2 has remote control and test features with DALI interface, and green and red LED status indicators. However, it has overcharge and deep discharge protection as well as high temperature Ni-Cd battery cells. Moreover, it operates safely under harsh environments with emergency lighting functions in case of low voltage and by interruption of the unswitched phase. It can be installed according to the desired conditions with its ceiling-mounted, ceiling embedded and wall-mounted options and moisture-proof feature.
