## Lingg \& J anke

## switching actuators 16A

## A2X6F16H

This 12-gang switching actuator of the eibDUO series combines two $6-$ gang actuators in a single housing and is ideally suited for switching high loads, also capacitive ones with high switching currents (C-load). - Switching power per channel is 16 A at 250 V AC. Each channel may be linked to its own mains phase. Each contact has a screwless twin terminal block. In this way, the phase may be effortlessly daisy-chained through and two circuits may beconnected, all in a way compliant with electrical regulations. The praxis oriented realisation is rounded off with the per-channel manual control, which also serves to indicate the switching status. The flexible application software allows each contact to be fully parameterised individually. Per group of 6 switching contacts, up to 40 different group addresses may be assigned.

## A6F16H

This 6-gang switching actuator of the eibSOLO series is ideally suited for switching high loads, also capacitive ones with high switching currents (C-load). $\quad$ Switching power per channel is 16A at 250 V AC. Each channel may be linked to its own mains phase. Each contact has a screwless twin terminal block. In this way, the phase may be effortlessly daisy-chained through and two circuits may beconnected, all in a way compliant with electrical regulations. The praxis oriented realisation is rounded off with the per-channel manual control, which also serves to indicate the switching status. The flexible application software allows each contact to be fully parameterised individually. For the 6 switching contacts, up to 40 different group addresses may be assigned.

technical specifications A2x6F16H (A6F16H )

| group adresses: | $2 \times 40$ (40) | nominal contact load: | 16A 250V AC $50 . .60 \mathrm{~Hz}$ |
| :---: | :---: | :---: | :---: |
| power supply: | 29V DC EIB | maximum power load: |  |
| auxiliary power: | not required | incandescent bulbs | 3680 W |
| protection class: | IP20 | TL lamps |  |
| width x height x depth: | $216(108) \times 90 \times 65 \mathrm{~mm}$ | compensated | 3680 W |
| mounting: | 35 mm DIN rail 12 units (6 units) | uncompensated | ( $\mathrm{C}_{\text {max }} 200 \mu \mathrm{~F}$ ) 2500 W |
| mechanical lifetime: | $10^{6}$ switching actions | low voltage halogen bulbs | (with transformer) 2000 W |
